About FDP:

It is a universally recognized fact that change is inevitable and also necessary in every field of our life. Whether we like it or not, whether we want it or not, whether we are prepared for it or not, change is bound to take place. More importantly change is required in education - especially in Higher Education. None can deny that higher education helps mankind to come to terms with the changing environment and provides it with the required preparedness to face the increasing challenges thrown by political, economic, social, technological, legal and environmental changes that take place continuously across the globe.

The New Education Policy - 2020 has been framed after a detailed evaluation of the strengths and weaknesses of the prevailing education system in our country at all levels. Meaningful deliberations among scholars and administrators across the different strata of society have gone into the making of the final policy in the present format.

Since the faculty members of higher educational institutions play a major role in the implementation of this policy, it is necessary that they understand the Policy in its true perspective so that the benefits visualized by the framers of the Policy can be realized in totality, within a reasonable time frame.

We sincerely hope that the participants will get an opportunity to understand the new education policy and bring about a drastic change in the way higher education is offered in their respective institutions, thereby fulfilling the aspirations of the youth of this country and through them, the sustained development of the nation as a whole.
